

Versatile nonwoven with a special focus on flexibility, while providing the expected adhesive effect.

ALLPROTECT Flex adapts perfectly to all surfaces and is therefore particularly suitable for use on vertical surfaces and components such as doors, frames and railings. It can also be put over edges.

Adaptable protective fleece for all corners and edges without having any loss of the adhesive effect.

Strengths

- ✓ Flexible / Stretchy
- ✓ Usable vertically and horizontally
- ✓ Very adherent (walls, ceilings, floors)
- ✓ Sticks to everything, no need for adhesive tape
- ✓ Residue-free
